Ranking Feature Understandability

Thank you for considering participating in this research project. The purpose of this document is to explain to you what the work is about and what your participation would involve, to enable you to make an informed choice.

The purpose of this study is to assess the understandability of a range of features in a dataset. Should you choose to participate, you will be asked to use a scale to assess the degree to which you understand a series of features in the domain of [DOMAIN]. The features will consist of one or multiple words and you will be asked to indicate your agreement regarding a series of statements about the feature. You will use a scale of 1-5 to rank your agreement.

Participation in this study is completely voluntary. There is no obligation to participate, and should you choose to do so you can refuse to answer specific questions or decide to withdraw from the study prior to completing the survey. All information you provide will be confidential and your anonymity will be protected throughout the study.

You maintain the right to withdraw from the study at any stage up to the point of data submission. At this point, your data will be collated with that of other participants and can no longer be retracted.

The anonymous data will be stored on a University College Cork supported cloud storage platform. The data will be stored on OneDrive for minimum of ten years.

The information you provide may contribute to research publications and/or conference presentations as well as a PhD Thesis. The anonymized collected data may be shared alongside research publications and/or conference presentations as well as a PhD Thesis. No identifying information will be included in these publications.
